

Setting up Spark AR

Setting Up Spark AR

- On your laptop go to <https://sparkar.facebook.com/ar-studio/> (you do not need a facebook account to download)

The screenshot shows the Spark AR website in a web browser. The address bar displays 'sparkar.facebook.com/ar-studio/'. The website has a navigation bar with links for 'Features', 'Inspiration', 'Learn', 'Blog', 'Manage Effects', and a prominent red 'Download' button. Below the navigation bar, there is a section titled 'SPARK AR UPDATES' with the headline 'Brand new features. All-new possibilities.' and a subtext stating: 'Our latest update simplifies the creation of AR effects — and our new capabilities open up fresh AR experiences on Instagram.' A 'Read More' button is located below this text. To the right of the text is a large, stylized image of a landscape with a white horse, a brown horse, and a pink, geometric tree. Below the image, there is a list of instructions for setting up Spark AR.

SPARK AR UPDATES

Brand new features. All-new possibilities.

Our latest update simplifies the creation of AR effects — and our new capabilities open up fresh AR experiences on Instagram.

[Read More](#)

- Follow the instructions to Install Spark AR
- You will also need to install Spark AR player on your mobile device in order to view your AR project
- Go to the App store and search for Spark AR Player, download
- You are now ready to make your first project
